

MAGNUS RUG

by FLOORMUFFLER

For clean and secure positioning of area rugs. Suitable for use on all hard surface flooring, Magnus Rug holds area rugs and mats strongly and securely in place, with no slipping, sliding or lifting.

BENEFITS

STRONG, SECURE HOLD

Prevent trips with no sliding, lifting or creeping.

CLEAN REMOVAL

Damage-free, quick and easy removal from floor.

FLEXIBLE POSITIONING

Quick and easy to install and uplift rugs from floor.

IDEAL FOR USE IN

Hotels, hospitality, workplace, retail & leisure.

EASY INSTALLATION

Magnus Rug uses a clever combination of magnetism and adhesion to form a secure, yet cleanly removeable bond between the rug and the floor.

It consists of 2 double-sided parts:

RUG PAD

With adhesive side and a metallic side.

The adhesive side sticks to the underside of the rug, while its metallic side is attracted to the magnetic side of the floor pad.

FLOOR PAD

With dry-tack adhesive side and a magnetic side.

The magnetic side is attracted to the metallic side of the rug pad, while the dry-tack side secures the rug to the floor.
