

# MAGNUS<sup>®</sup> RUG

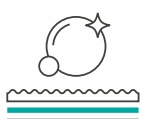

## Magnetic Rug Grippers

For clean and secure positioning of area rugs. Suitable for use on all hard surface flooring, Magnus Rug holds area rugs and mats strongly and securely in place, with no slipping, sliding or lifting.

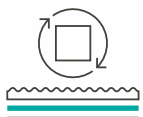

### Strong, secure hold

Prevent trips with no sliding, lifting or creeping.

### Clean removal

Damage-free, quick and easy removal from floor.

### Flexibility

Quick and easy to install and uplift rugs from floor.

### Ideal for use in

Hotels, hospitality, workplace, retail & leisure.

### Easy installation

Magnus Rug uses a clever combination of magnetism and adhesion to form a secure, yet cleanly removeable bond between the rug and the floor.

#### ① Area Rug

Larger rugs may require more than one pack of Magnus Rug pads, smaller rugs/mats fewer.

#### ② Rug Pad

The adhesive side sticks to the underside of the rug, while its metallic side is attracted to the magnetic side of the floor pad.

#### ③ Floor Pad

The magnetic side is attracted to the metallic side of the rug pad, while the dry-tack side secures the rug to the floor.

#### ④ Floor

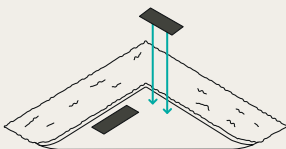

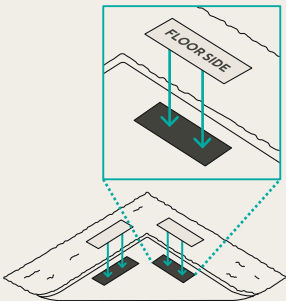

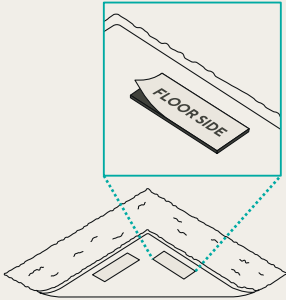

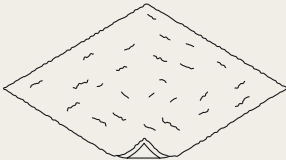

For use on all hard flooring surfaces including LVT, laminate, wood and ceramic flooring. Check suitability of adhesive prior to installation.

# INSTALLATION INSTRUCTIONS

<p>1</p> 	<p>Separate the <b>floor and the rug pad</b> from each other and remove liner marked "Rug Side" from the <b>rug pad</b>.</p>	<p>2</p>  <p>Stick rug side to the underside of the rug.</p> <p>Use 2 pads positioned at right angles to each other on each rug corner.</p>
<p>3</p> 	<p>Remove the silicone liner from the side of the <b>floor pad</b> with "Remove" sticker.</p>	<p>4</p>  <p>Position <b>floor pad</b> over the exposed face of the <b>rug pad</b> and connect.</p>
<p>5</p> 	<p>Remove remaining liner marked "Floor Side" from <b>floor pad</b>.</p>	<p>6</p>  <p>Adhere to floor.</p> <p>Position one side of the rug first using previous steps before completing the other sides of the rug.</p>
