

MAGNUS[®] UNDERLAYMENT

Magnetically receptive acoustical underlayment that empowers the subfloor for adhesive-free magnetic flooring installations.

100 SF **COVERAGE**

Adhesive-free

The power of magnetism provides superior hold to a diverse range of floor coverings.

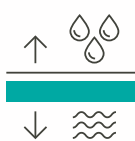

Easy installation

Simplified installation process:
Just roll down the underlayment and you are ready to start.

Acoustical performance

Proven acoustical performance of award winning FloorMuffler premium foam underlayment.

Moisture protection

The closed cells of the foam create a built in moisture barrier without the need of adding an additional plastic film.

Flexibility

Provides freedom of choice to create spaces with swappable floor finishes.

Compatible with magnetic and non-magnetic floor coverings with Magnus Tabs.

Circularity

Floor covering can be reused or recycled, eliminating landfill waste.

Once the floor has been removed, Magnus Underlayment is ready for the next floor installation.
